

# Calling All Parents in Early Intervention! Your Voice Matters

## JOIN OUR VIRTUAL PARENT FOCUS GROUP

Are you a parent or caregiver of a child currently receiving Early Intervention (EI) services?

We want to hear from YOU!

- Share your feedback on EI services and materials
- Help identify Program strengths and challenges by sharing experiences, ideas and needs
- Support the Department's efforts to improve family engagement and improve the Program for all Early Intervention families

### Who Should Join?

Parents and caregivers currently in the Early Intervention Program or who have recently transitioned out of the EI. No special experience is needed – just your honest thoughts and experiences.

### How It Works:

- Sessions are held virtually
- Led by a facilitator
- Comfortable, confidential, and respectful space for sharing

*Interpretation services are available upon request*
