Dear Parent:

The New York State Department of Health Bureau of Early Intervention and the Family Initiative Coordination Services Project at Just Kids Early Childhood Learning Center are sponsoring an *Early Intervention Partners Training Project* in the Central Region this summer/fall for parents of infants and toddlers with disabilities currently receiving early intervention services. The training is also for parent members of the Local Early Intervention Coordinating Council (LEICC) and its committees.

The *Early Intervention Partners Training Project* helps parents of young children with disabilities become involved in Early Intervention Program leadership activities. The training sessions provide information, resources, and skill-building activities designed to increase parent advocacy and leadership skills. Parents are encouraged to form working partnerships with early intervention professionals and policymakers.

The training sessions will help parents of infants and toddlers with disabilities gain a better understanding of the Early Intervention Program. Parents who are accepted to attend will receive information about early intervention laws and regulations, Individualized Family Service Plan (IFSP) development, family-directed assessments, natural environments, the history of the disability movement, individual leadership goals, clinical practice guidelines, parent rights, information regarding Early Intervention Coordinating Councils (EICCs), opportunities for parent involvement, and the process of transitioning out of the Early Intervention Program.

We are inviting you to apply to participate in this training program. The training program is *free of charge*, with all training materials provided.

**Pre-recorded video to view.** Prior to Session I, participants will receive a link to a short video about early intervention, which can be viewed on a personal computer or mobile device before the Session I web-based training.

**Session I:** A live, interactive Webinar to be viewed on your personal computer or mobile device. This web-based training is presented as an interactive webinar titled, *IFSP Functional Outcomes*.

**Session II:** An in-person, two-day training held at the Holiday Inn & Suites Syracuse Airport, 400 7th North Street, Liverpool, NY 13088.

Please see the next page for information on the dates and times of sessions.
